ABSTRACT

METHOD FOR MANAGING MULTIMEDIA PLATFORM RESOURCES AND MULTIMEDIA PLATFORM FOR IMPLEMENTING IT

A method and an apparatus for managing signal-processing resources of a multimedia platform that is designed for applying signal-processing operations to multimedia signals defines multimedia functions each capable of monitoring the operation of a set of multimedia platform signal-processing resources, puts them in contact, adapts the contents of the signal-processing resource set depending on the multimedia signal to be processed, and uses the multimedia functions to apply the signal-processing operations to the multimedia signals.
